

## Sheridan County 911 is RapidSOS Ready!

Sheridan County 911 has recently enabled RapidSOS, a solution that provides life-saving data - including caller location, health and medical information, connected building and alarm data, vehicle telematics data, and more - to 911 telecommunicators in the event of an emergency.

Sheridan County 911 had a table at September's Sheridan County Health and Wellness Fair, where they showed how the system works.

It is important to note that there are some circumstances where this does not work- such as roaming calls, older cell phones, and cell phones with no paid service.

With this upgrade, Sheridan County 911 can access accurate cell phone caller location and additional life-saving information when responding to 911 calls. This may include emergency contact information, security system alarm information, medical and health information, and more.

Sheridan County residents can also become RapidSOS Ready by creating a free Emergency Health Profile at [www.emergencyprofile.org](http://www.emergencyprofile.org). By doing so, they provide first responders with critical medical information in an emergency to get you the right care at the right time.

Emergencyprofile.org is sponsored by RapidSOS, the American Heart Association, Red Cross, and Direct Relief.

This information can only be accessed during a 911 call or text initiated from the caller's cell phone number associated with the Emergency Health Profile. Information is not available to every 911 center- something to remember as you travel.

Become RapidSOS Ready Today!

1. Create a free Emergency Health Profile by visiting [www.emergencyprofile.org](http://www.emergencyprofile.org).
2. In an emergency, dial 911 on the associated cell phone.
3. Your Emergency Health Profile is automatically sent to 911 through RapidSOS.

This **Featured Resource** brought to you by Sheridan County Behavioral Health Coalition. Promoting individual, family, and community behavioral health awareness and wellness.
